

**ANCIENT
CIVILIZATIONS:
BUILT BY LAND,
WATER &
WONDER**

GUIDING QUESTION FOR YOUR QUEST:

How has geography contributed to the development of civilizations and empires?

Geography is from the Greek words
geo (γῆ) = earth
graphia (γραφία) = writing

The background of the image shows ancient stone ruins, including several standing columns and a partially collapsed structure, set against a clear blue sky with some clouds. The foreground is filled with scattered stone blocks and patches of green grass. A large, torn-edge paper overlay is positioned in the center-left, containing the text.

LEARNING OUTCOME FOR YOUR QUEST:

We will examine how geographical features and environmental changes contributed to the settlement and trade of ancient civilizations!

BACKGROUND KNOWLEDGE FOR YOUR QUEST:

3000 BCE
TO
500 CE

Ancient civilization were complex societies that existed thousands of years ago in different locations around the world!

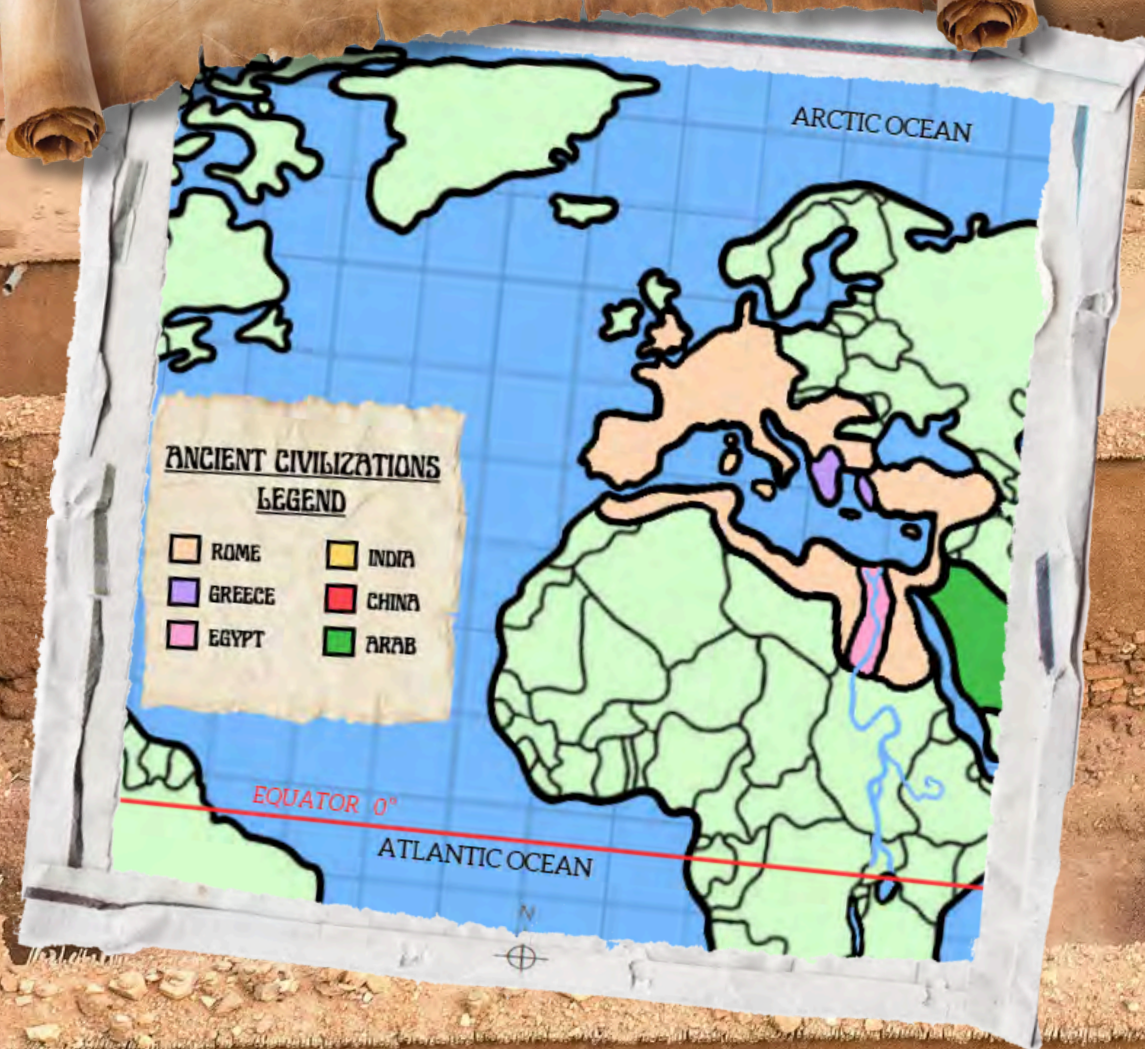

UNDERSTANDING YOUR QUEST:

Your team will
discover how
environment and
settlement of
people are
interrelated!

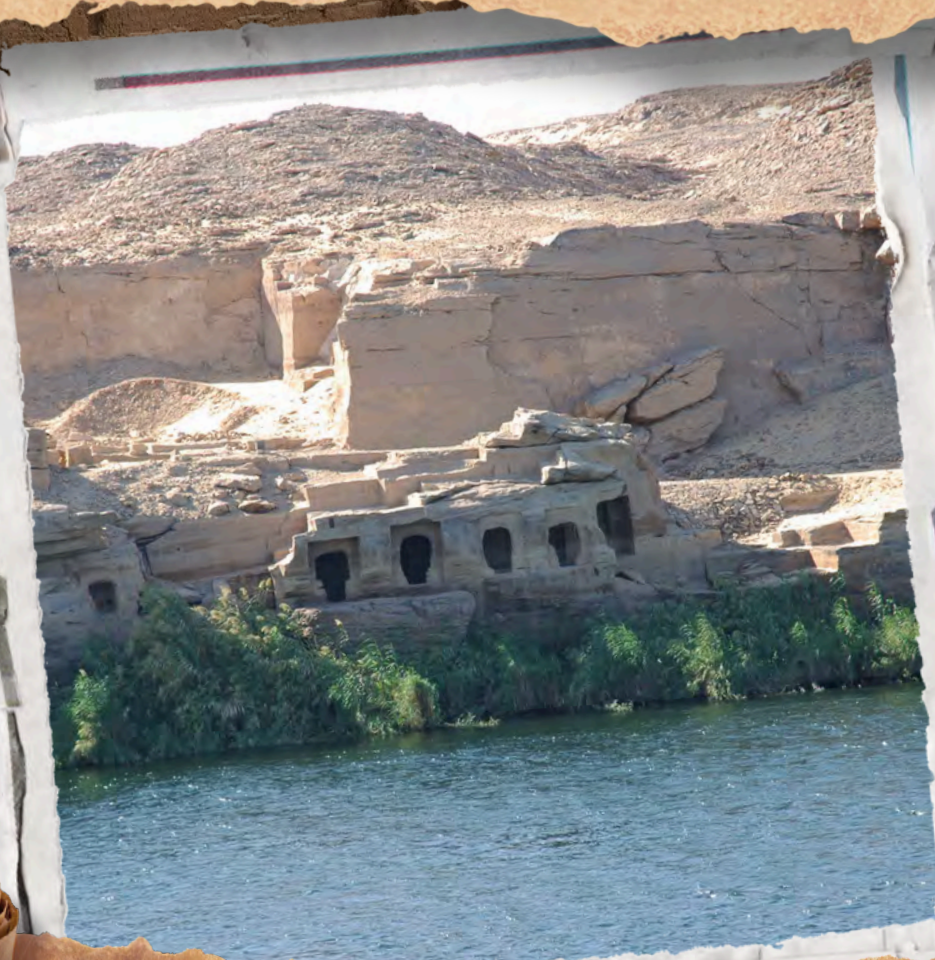

SKILLS AND PROCEDURES NEEDED FOR YOUR QUEST:

1. Compare the locations of multiple ancient civilizations.

2. Justify the settlement of ancient civilizations along river valleys and coastlines.

3. Determine effects of environmental change on human behaviour.

INSTRUCTIONS FOR YOUR QUEST:

The Quest begins with one Cultural Artifact!

** Leave the artifact at the first station.**

1. Move safely to the correct station when instructed.
2. Use the front & back of the poster to complete your geography journal.
3. Complete the activity or look at artifacts at each station.
4. Solve the riddle to move to your next station.

REPEAT FOR ALL STATIONS!

Finale: Team Presentations
Create a Civilization!

Each team will visit all
6 Civilization Stations!

6 STATION MARKERS
