Step 3: Place the lid onto the container and insert the main stem.

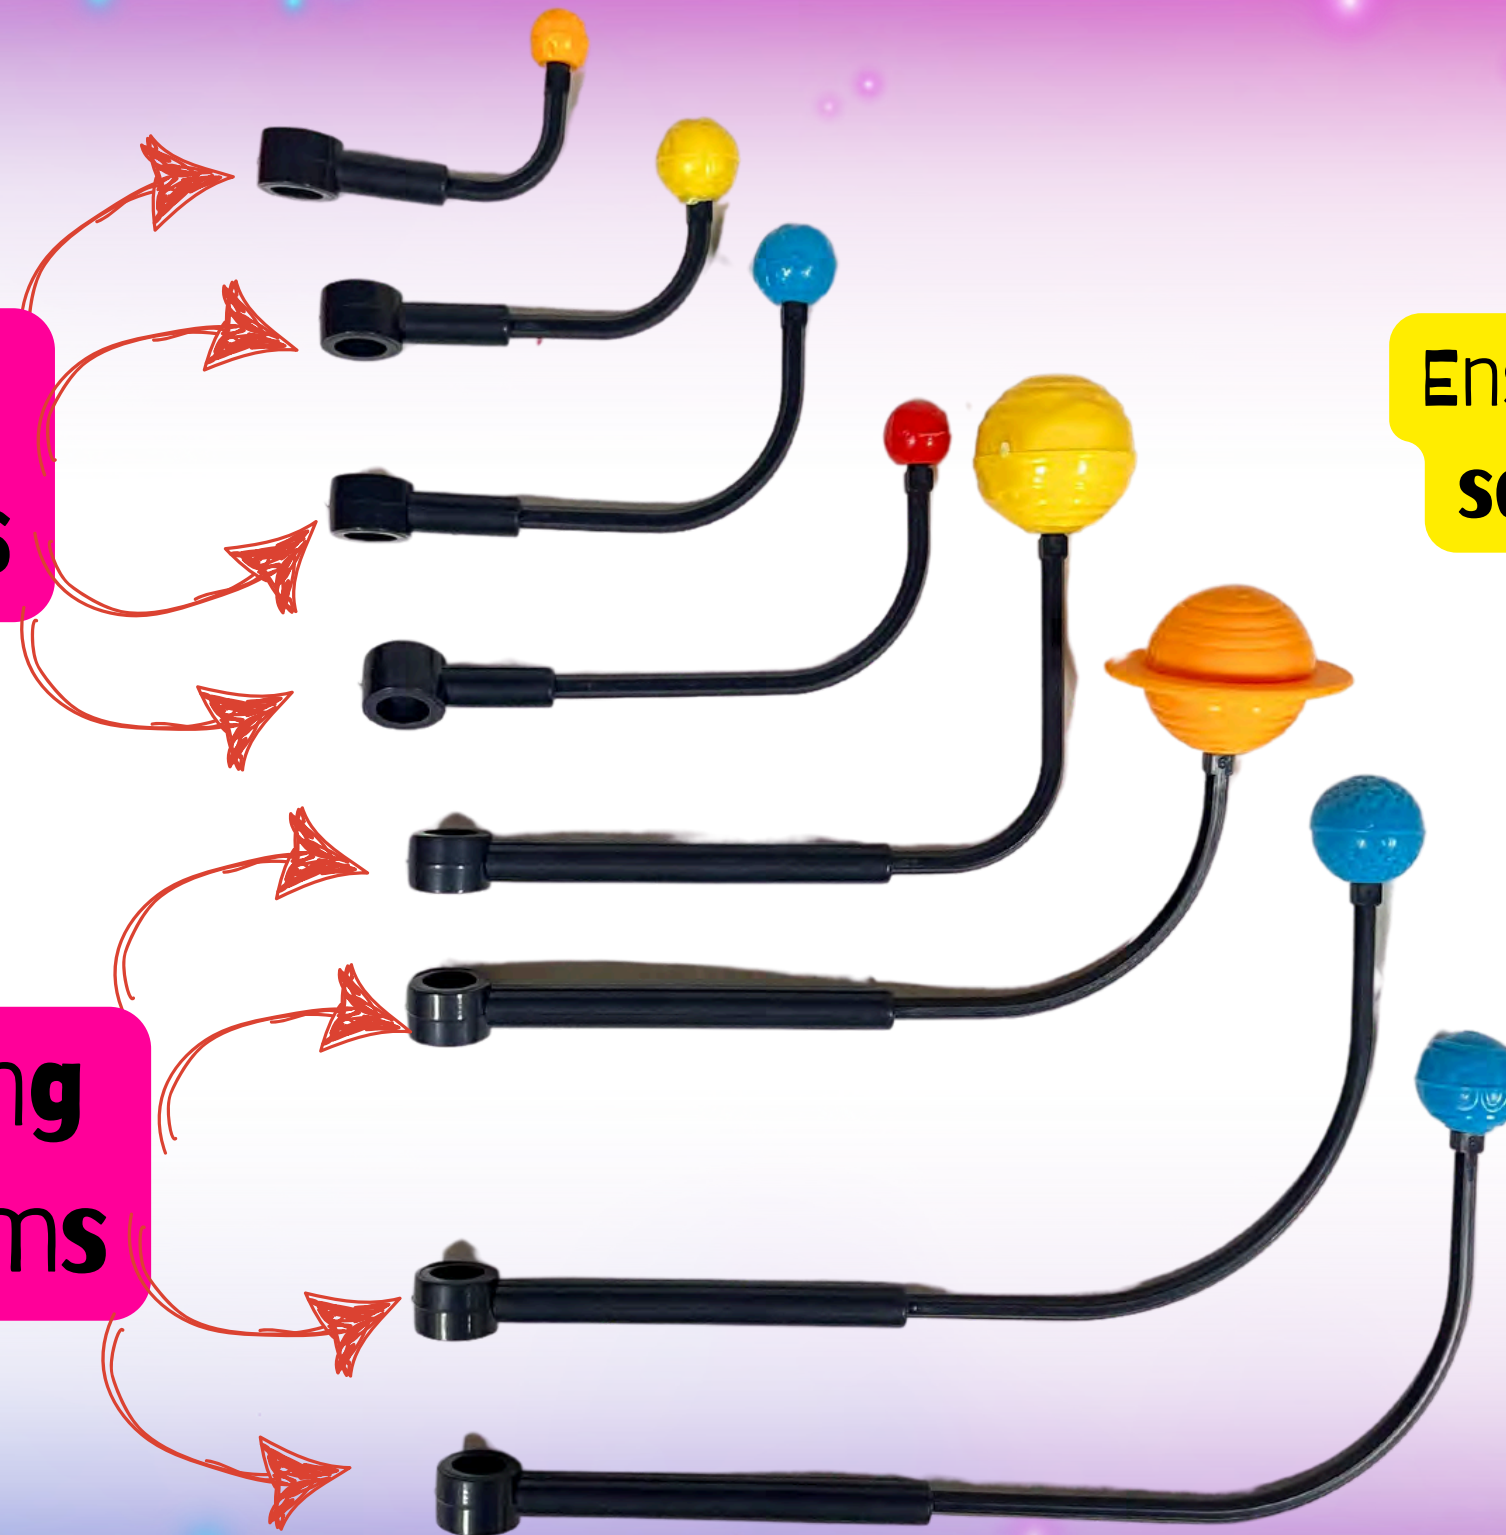

Step 4: Assemble the planet and arms.

YOU CAN PLACE
THE STEMS ON
THE BASE
BEFORE
ADDING THE
ARMS AND
PLANETS

Short
stems

Long
stems

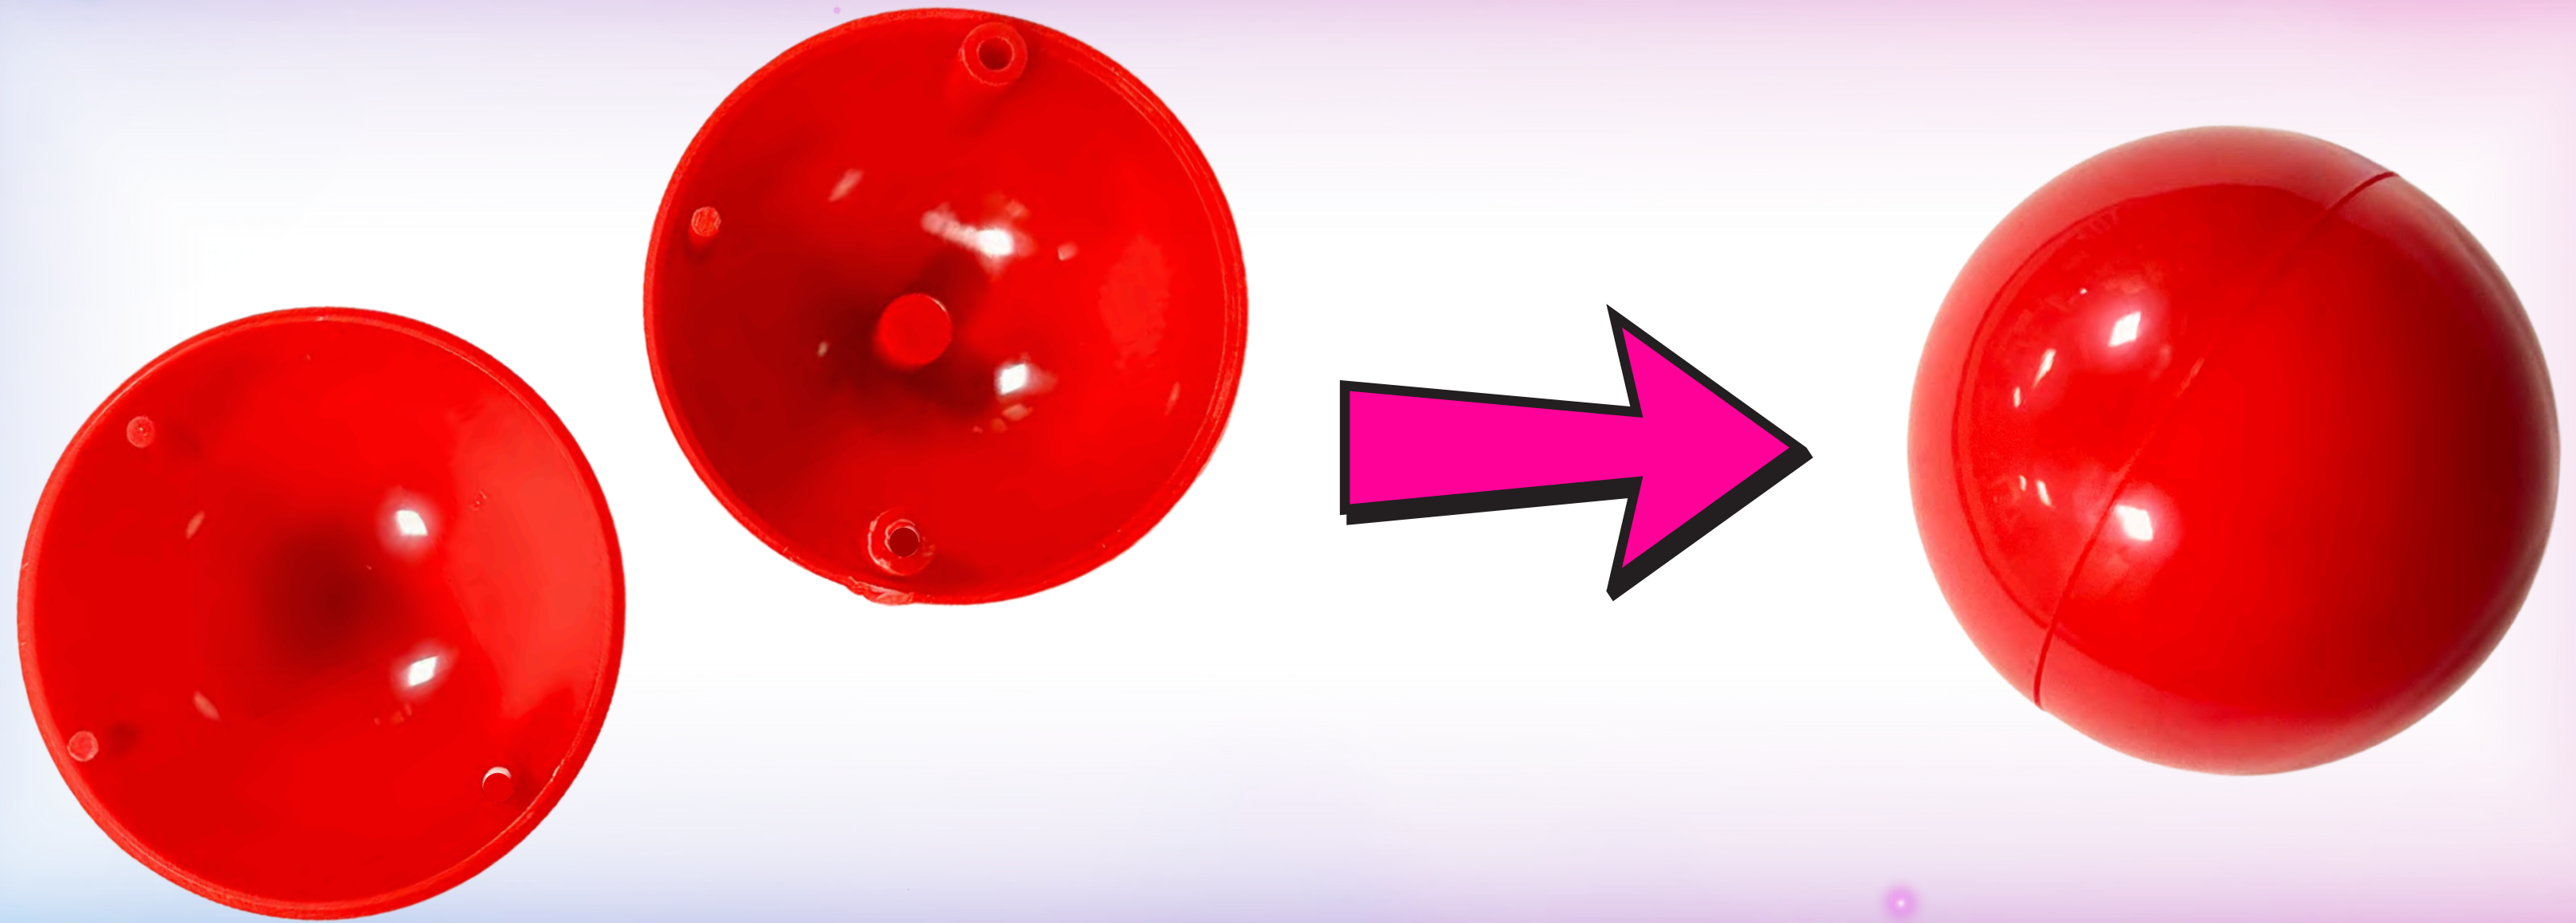

Ensure each bent "arm" is inserted
so that the planet stands upright

Step 5: Slide the planets through the main stem, working backwards from # 8.

Step 6: Carefully assemble the sun.

Step 7: Add the Sun to the top to complete your model.

A vibrant, colorful nebula in space, featuring swirling clouds of purple, pink, orange, and blue, set against a dark blue background filled with numerous bright, multi-colored stars. The text "Movement Break" is written in a white, brush-stroke style font across the center of the image.

Movement Break
