

# MONKEY BUSINESS

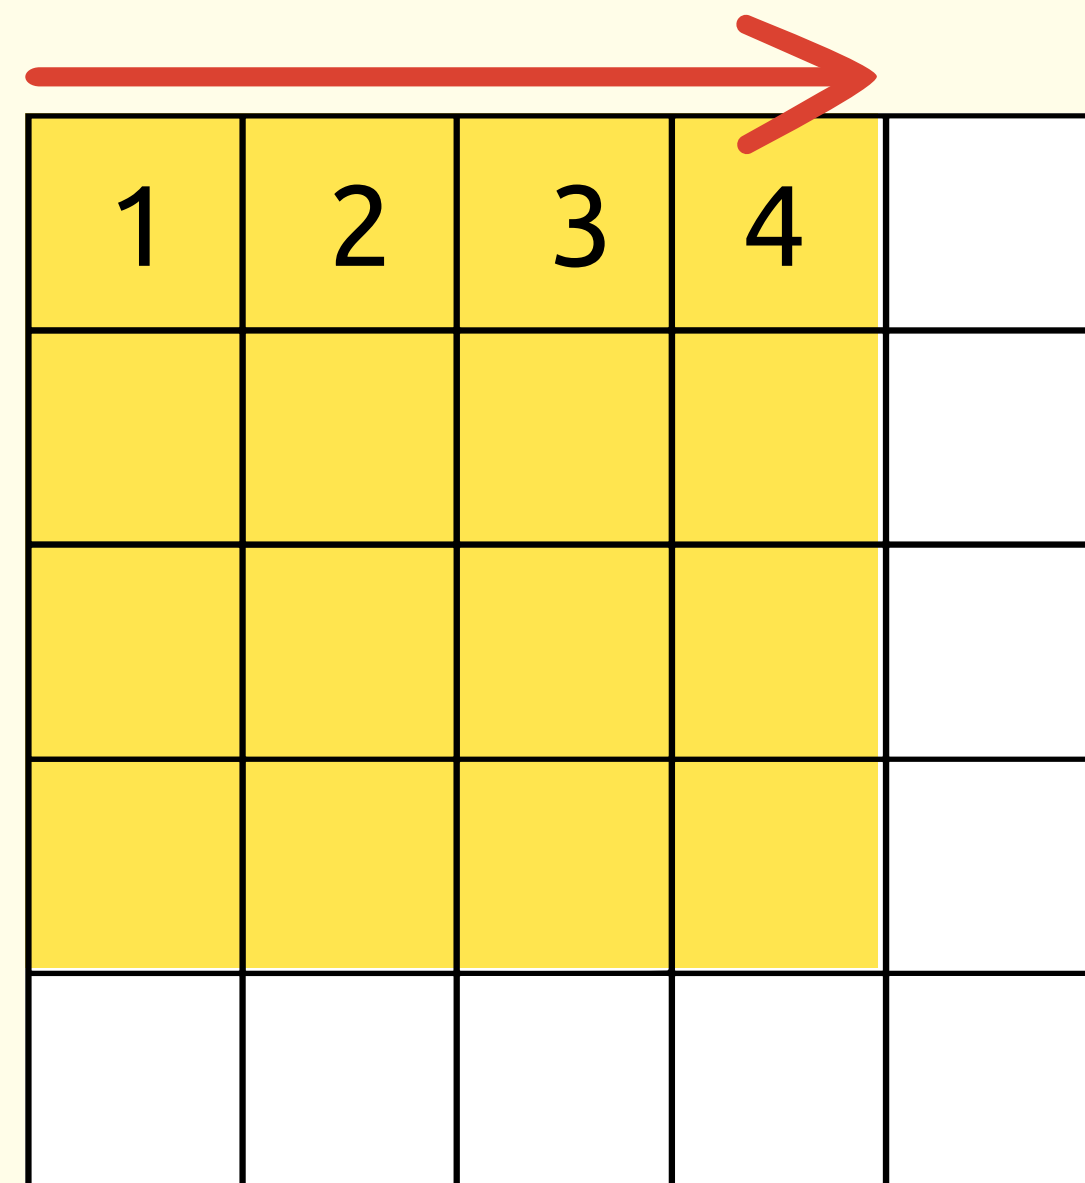

Teacher's Pet

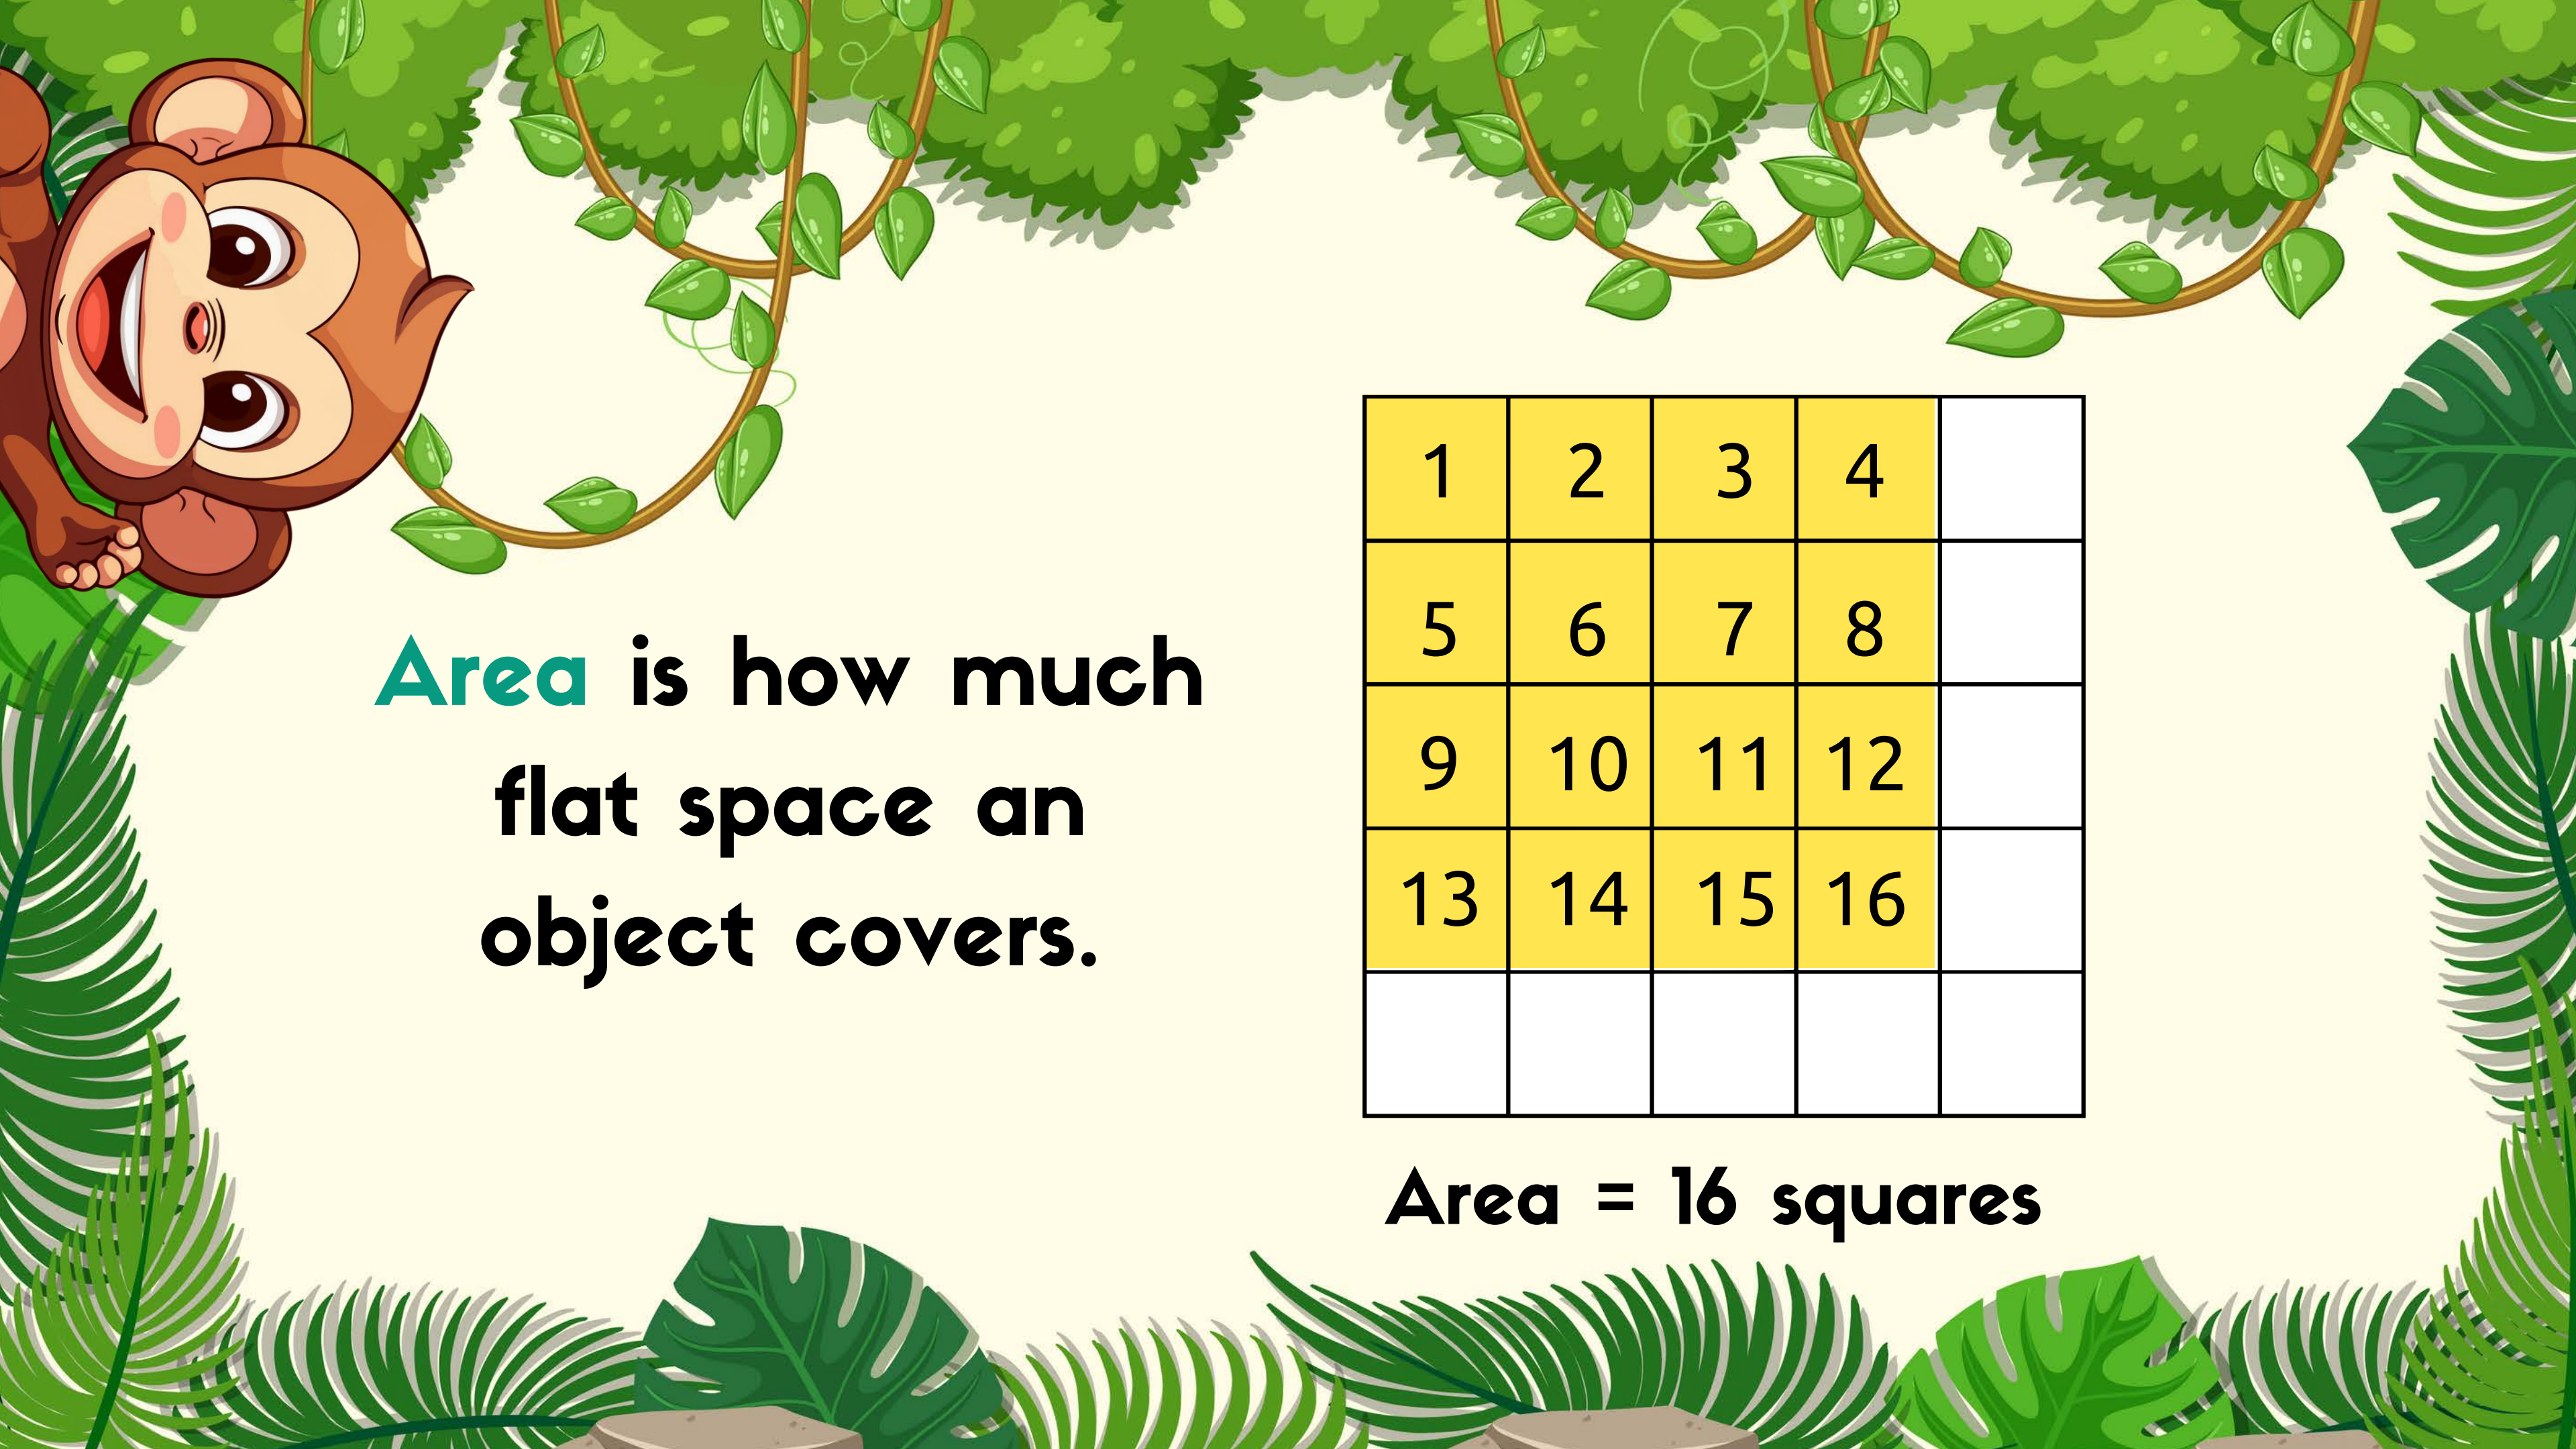

**Measure Length, Area and Weight with me!**

**Length** is how long something is.

**Length = 4 squares**

**Area** is how much flat space an object covers.

1	2	3	4	
5	6	7	8	
9	10	11	12	
13	14	15	16	

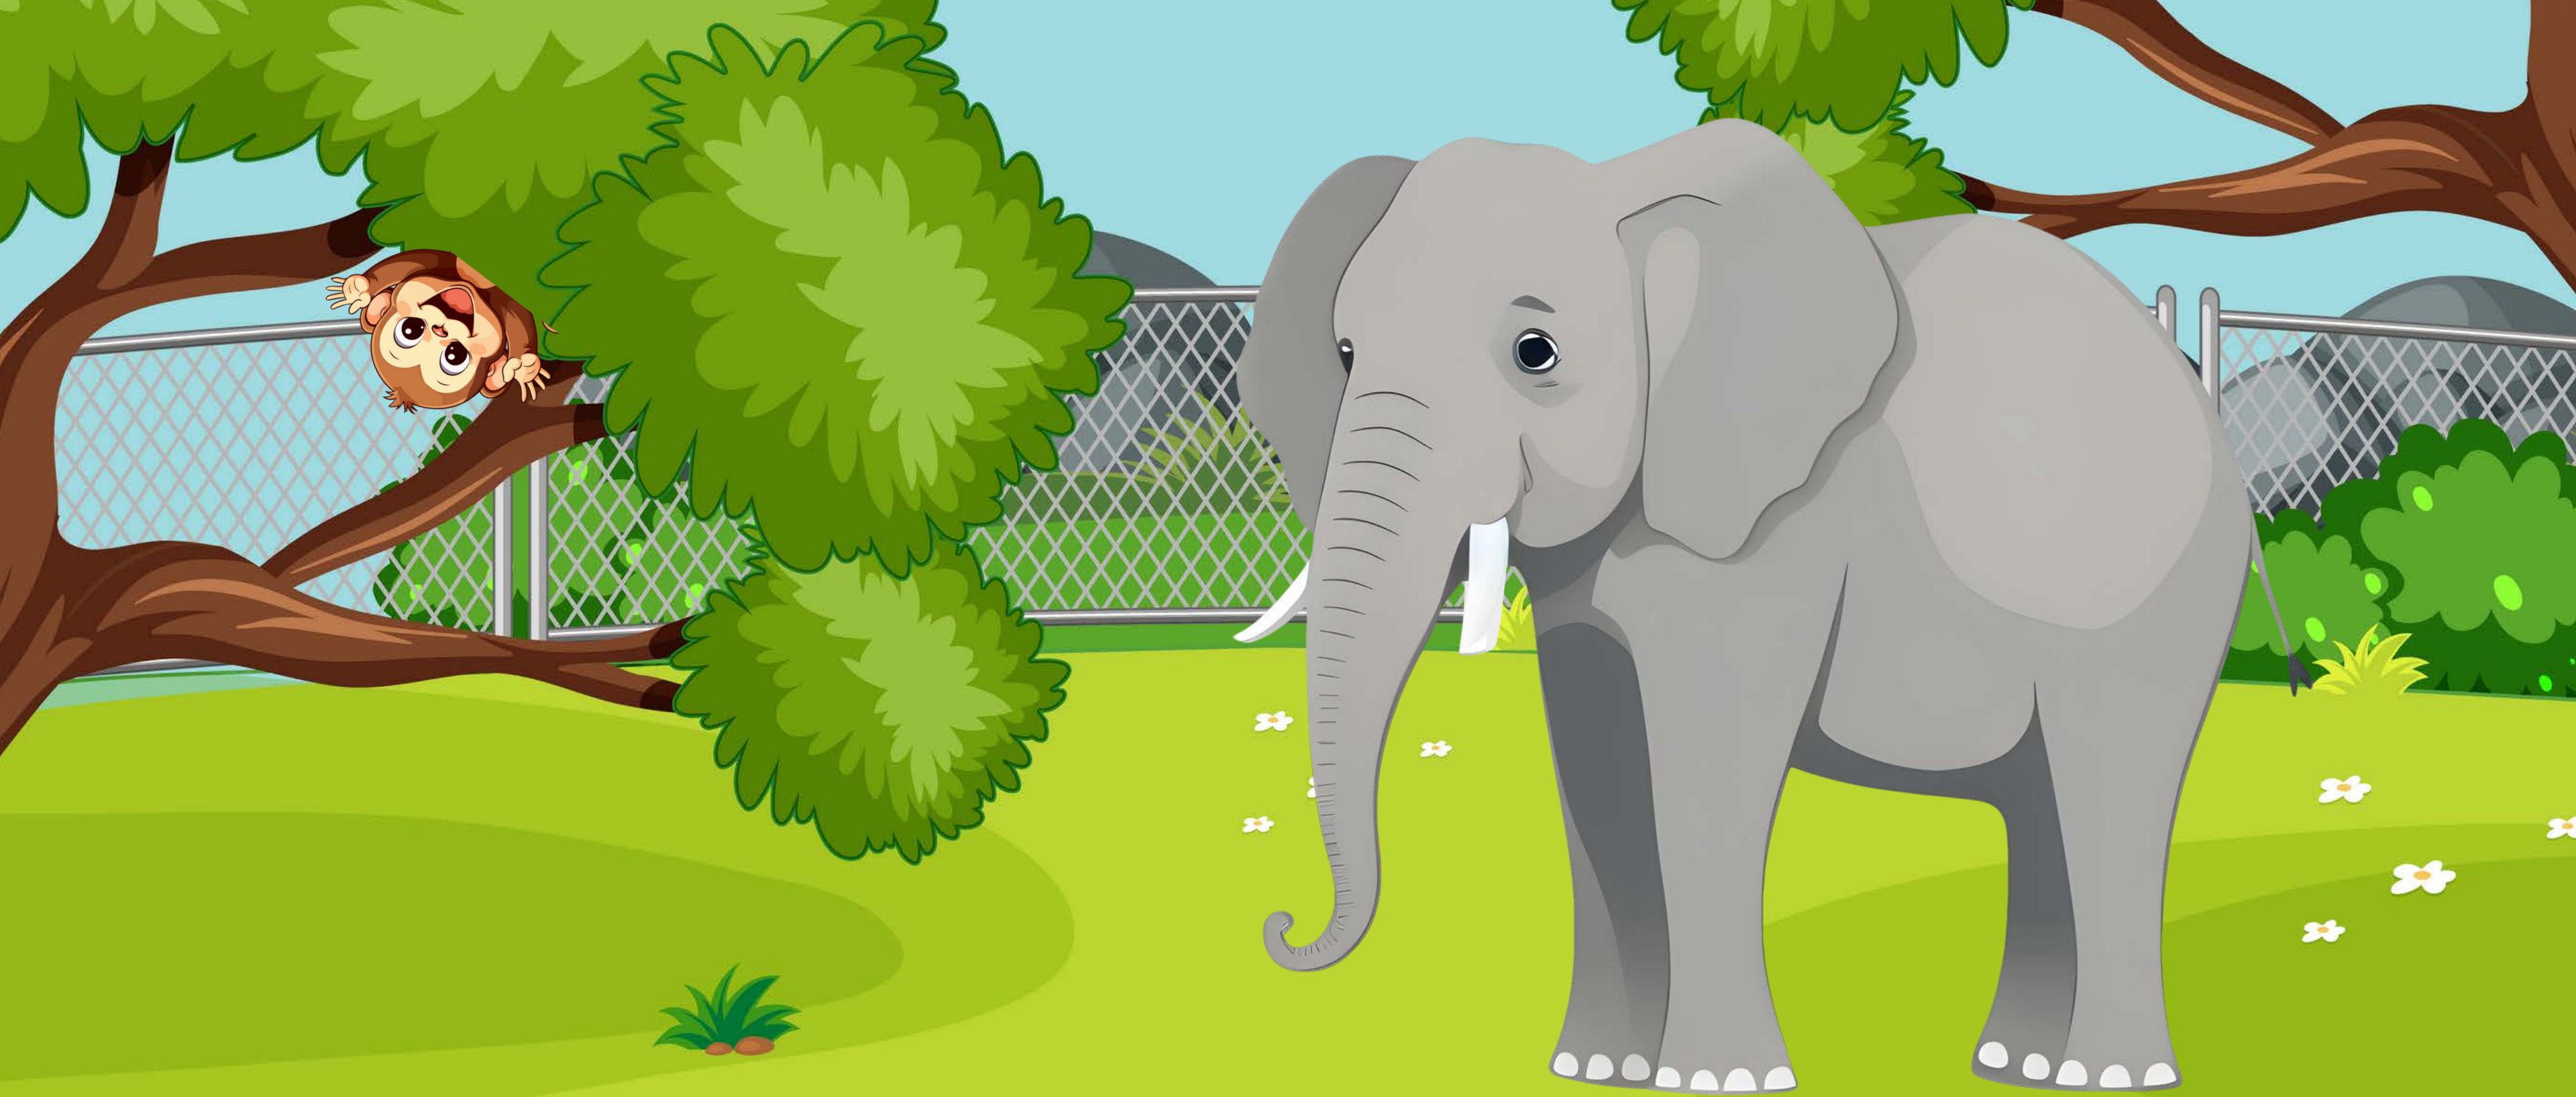

**Area = 16 squares**

**Weight (or mass) is  
the heaviness of  
an object.**

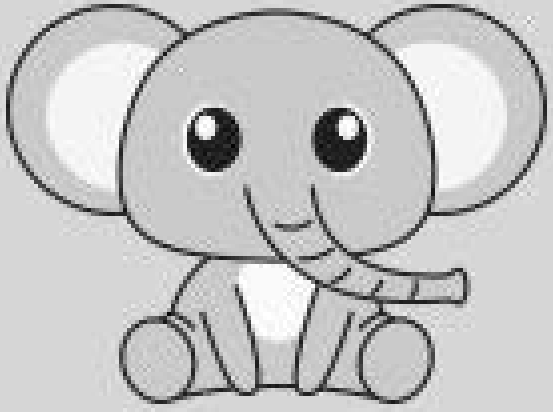

**Weight = 5 monkeys**

**Let's measure the objects in the  
elephant's enclosure together!**

Object	Bed	Dish	Toy
Animal			
 <p><b>Elephant</b></p>	<p>Length: 5</p> <p>Area: 25</p> <p>Weight: 11 monkeys</p>	<p>Length: 5</p> <p>Area: 15</p> <p>Weight: 13 monkeys</p>	<p>Length: 3</p> <p>Area: 9</p> <p>Weight: 6 monkeys</p>

**Now it is your turn to measure the items  
in the Koala and Lion enclosures!**

**Well done! You did it!**  
**Time to take a break!**

**It's time to build your  
MONKEY ENCLOSURE!**

THANK YOU!

I  MY

ENCLOSURE!
