

MONKEY BUSINESS

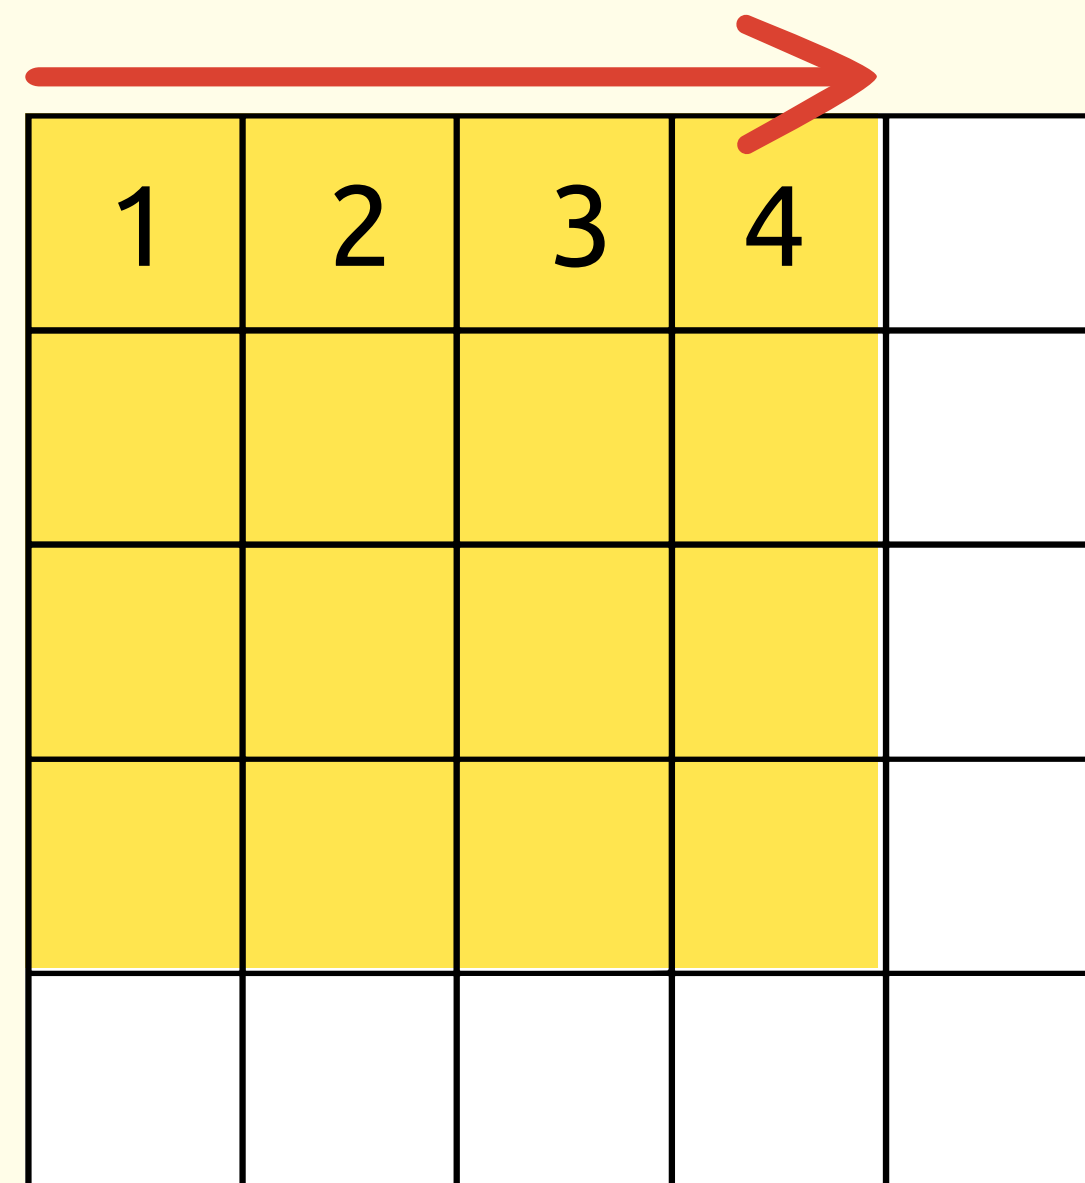

Teacher's Pet

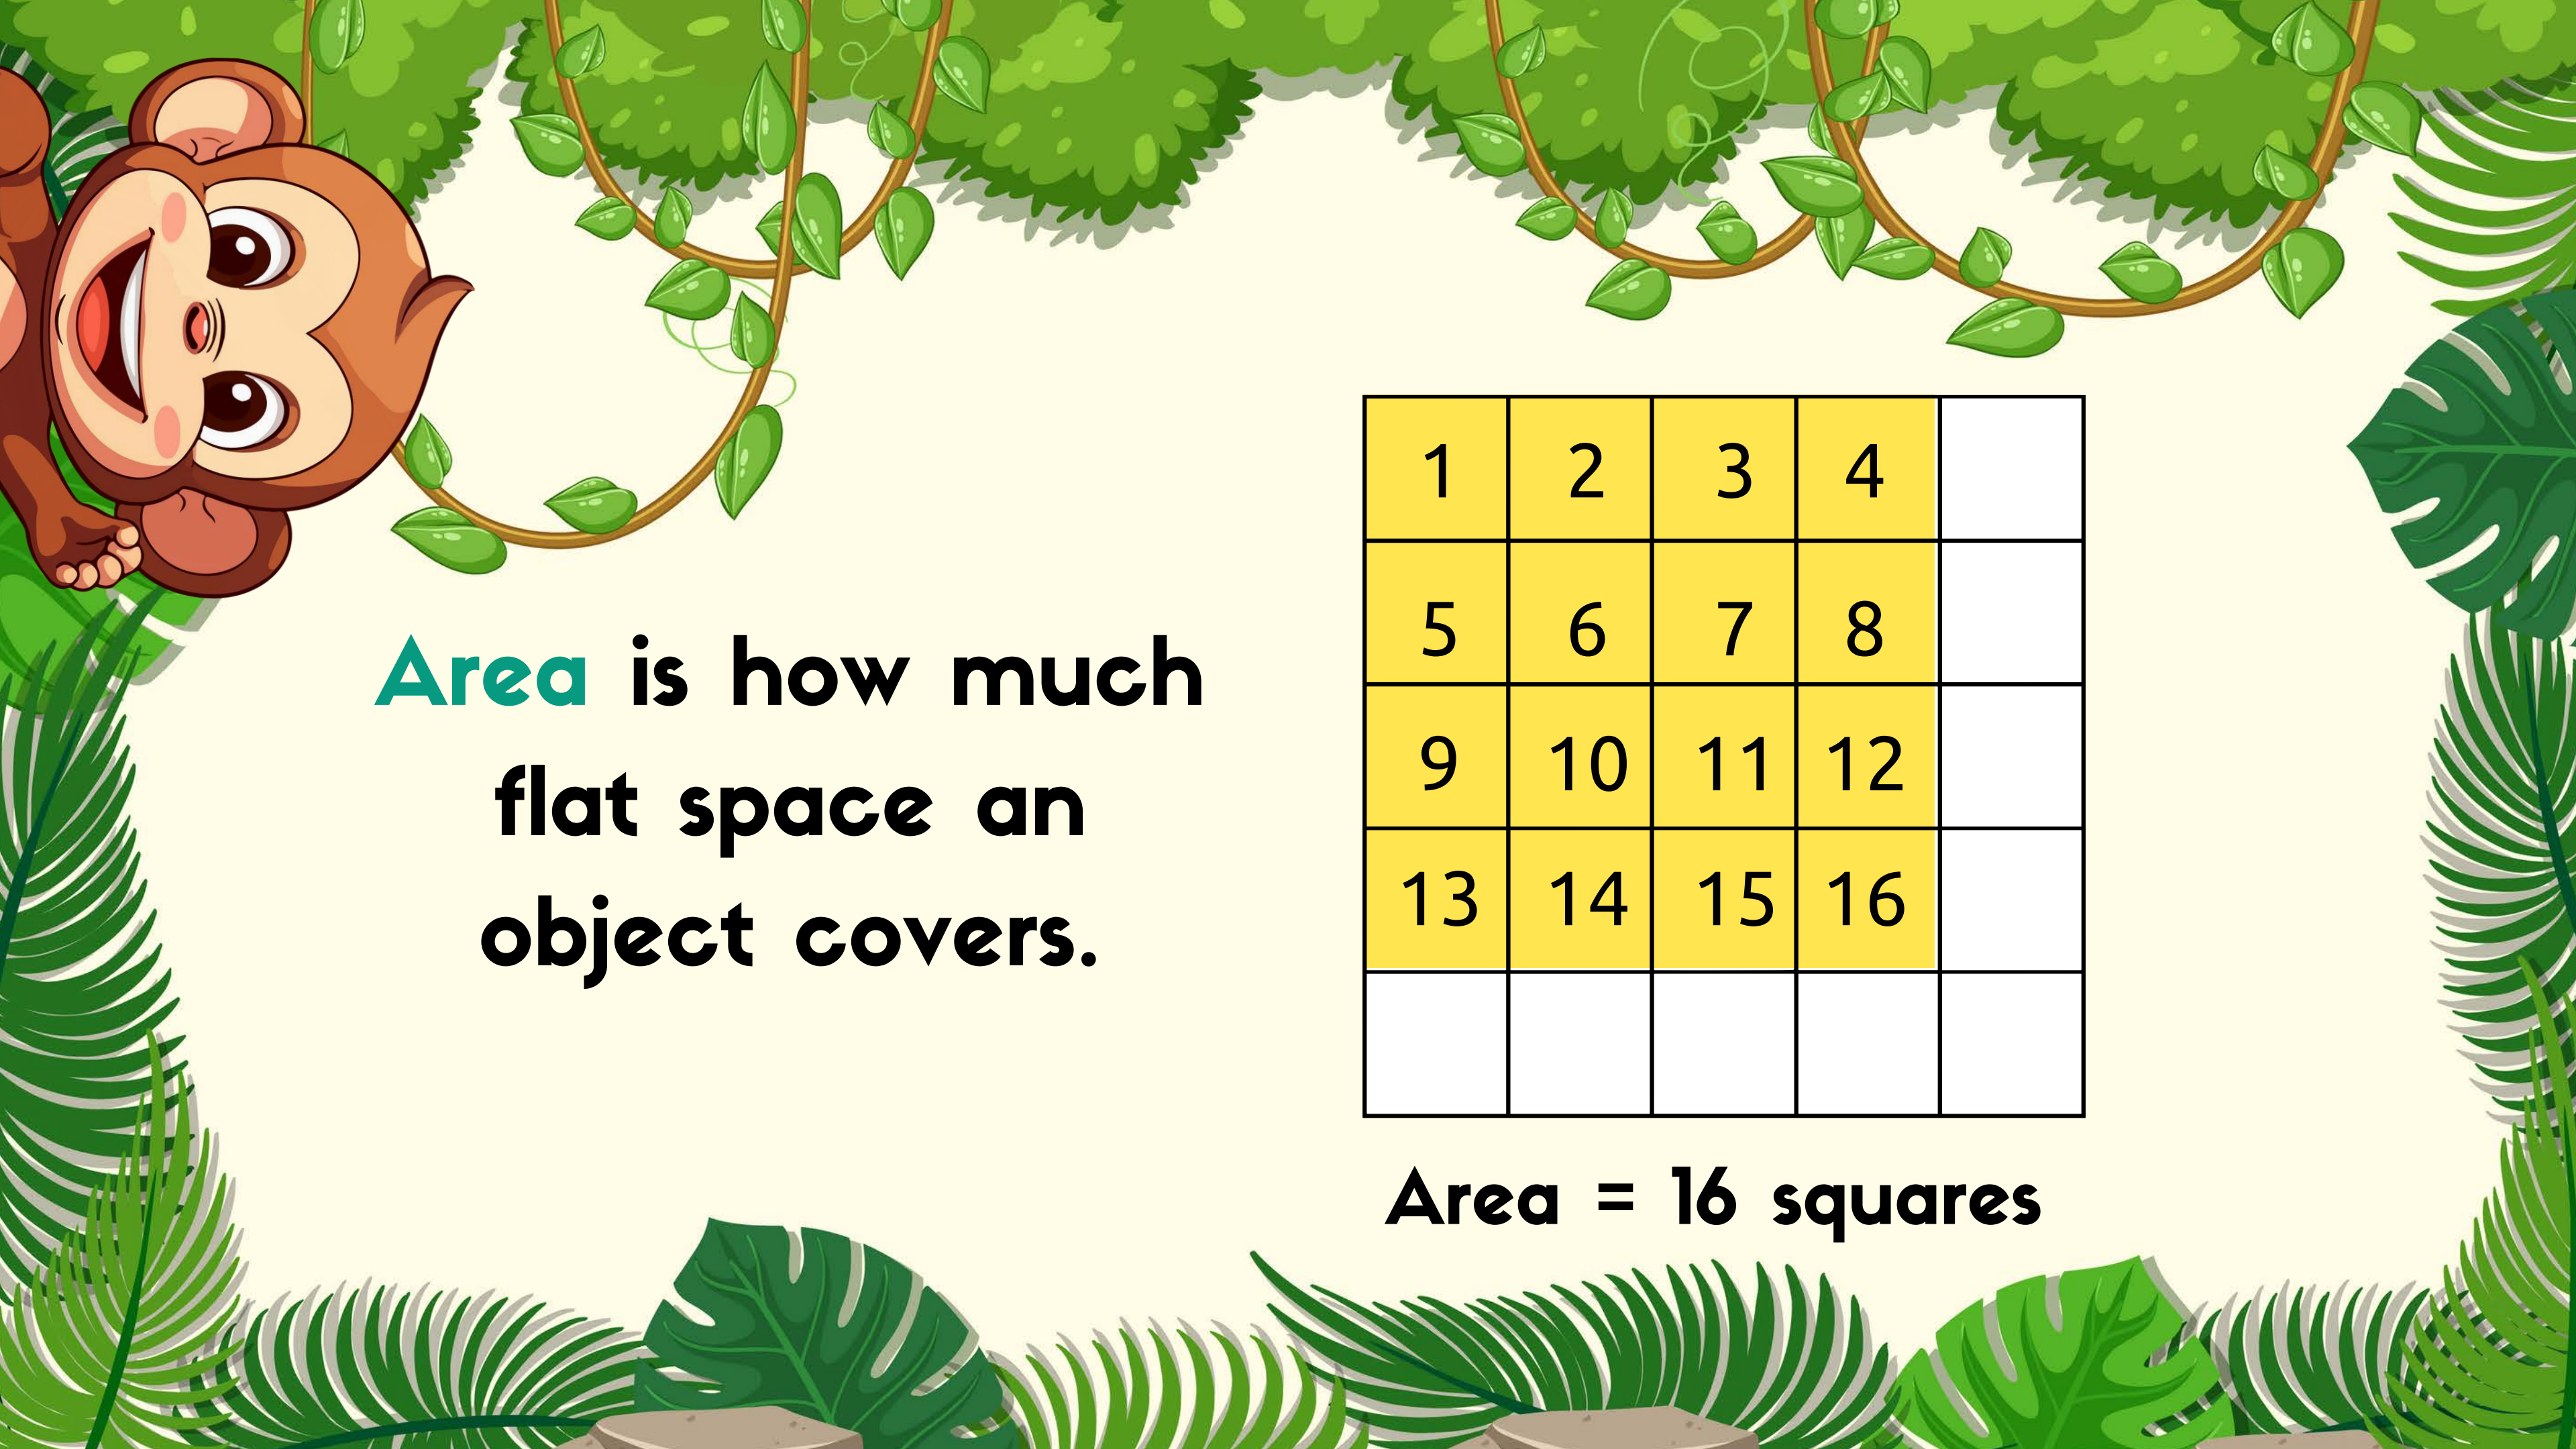

Measure Length, Area and Weight with me!

Length is how long something is.

Length = 4 squares

Area is how much flat space an object covers.

1	2	3	4	
5	6	7	8	
9	10	11	12	
13	14	15	16	

Area = 16 squares

**Weight (or mass) is
the heaviness of
an object.**

Weight = 5 monkeys

**Let's measure the objects in the
elephant's enclosure together!**

Object Animal	Bed 	Dish 	Toy 
 Elephant	Length: 5 Area: 25 Weight: 11 monkeys	Length: 5 Area: 15 Weight: 13 monkeys	Length: 3 Area: 9 Weight: 6 monkeys

**Now it is your turn to measure the items
in the Koala and Lion enclosures!**

Well done! You did it!
Time to take a break!

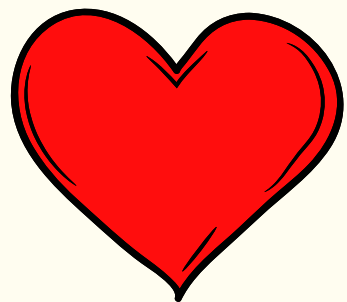

**It's time to build your
MONKEY ENCLOSURE!**

THANK YOU!

I  MY

ENCLOSURE!
